Courses

Delivery: At Seneca, courses are delivered in four [formats \(/programs/delivery.html\)](/programs/delivery.html): online, in-person, hybrid (an online, in-person combination) or flexible (offered in-person and online at the same time).

The chart below outlines the delivery options available for each course in this program. For some academic terms, there may be more than one delivery option available. You'll be able to choose your preferred options when you select classes to build your course schedule. Selection for preferred course delivery will be considered on a first come, first served basis.

International students: The impact of studying from outside of Canada and Post-Graduation Work Permit (PGWP) eligibility differs significantly based on when you start your program. Please review the [PGWP eligibility \(/international/support/pgwp.html\)](/international/support/pgwp.html) **before** choosing your program and course delivery.
